

DATE FOR THE DIARY

Be among the first to experience the 3-a-side Ping Pong phenomenon sweeping the nation!

Fun in the Park, Shephalbury Park, Stevenage, 27 August 2014

Table tennis enthusiasts in Stevenage are in for a treat this summer. T3 Ping Pong, the company responsible for the world's first circular ping pong table on which 3-a-side ping pong can be played, is coming to town on Wednesday 27 August to take part in the <name of the event>.

Unveiled last year at the Give It A Go festival on London's Hampstead Heath, the table and the game are rapidly acquiring fans who love the social aspects to playing with 6 people (or up to 12 if playing our 6-a-side game). See the game featured here on the BBC - <http://www.bbc.co.uk/sport/0/get-inspired/25715800>

The unusual circular design and specially constructed nets are the foundations of a game which is fast and fun. 3-a-side ping pong offers players a greater range of shots increasing the scope for spectacular rallies.

Manufactured and designed in the UK, T3 is the most revolutionary contribution to the ping pong/table tennis world since its conception in the UK cir. 1880s. It has already captured the imagination of many sporting professionals and novices alike. The table comes in three sizes: T3 full size adult table, T3ONE70 which is smaller in diameter and perfect for 6-9 year olds and adult recreational use, and T3 SuperMini for 3-6 years, which is proving to be the perfect introduction to

ping pong, popular in primary schools up and down the country. (Watch out, we'll have our GB Olympic winners very soon!) The T3 full size table will be on show in Stevenage and **FREE** to try for anyone attending the event.
